ing about the deck when they were caught in the swirl of water and carried off with the other passengers. On the return rush of the wave the children were being carried directly toward the open door through which the five who lost their lives had been carried when Miss Costa and the steward rushed to their rescue and dragged them back safely.

Wednesday's disaster marks the first time in the Casper Line's history of more than 50 years that a passenger has been lost from one of its steamers by accident.

SUIT TO OUST A LOAN COMPANY.

Cleveland, Oct. 14.—Attorney General Wade H. Ellis today began quo warranto proceedings in the circuit court against the Indemnity Savings & Loan Co. of this city, praying that it be ousted from its corporate rights.

The attorney general charges that the banking company has committed and omitted acts which amount to a surrender of its corporate rights and privileges. The state inspector of banking and loan associations, he says, investigated the company on August 14th. He reported it to be in unsound condition. The last statement of the company issued Dec. 16, 1900 showed its assets to be \$1,485,482, deposits \$682,614; capital stock \$768,196. The president of the bank is H. H. Sanborn.

A THREE-MILE RIDE

Taken on the Pilot of a Locomotive by a Nine-year-old Girl.

TO SAVE HER PET DOG

She Ran In Front of the Train and Was Picked Up by Cow-catcher.

Chicago, Ill., Oct. 14.—Nine year old Anna Lutz, of Evanston, was carried three miles on the pilot of a locomotive last night after jumping in front of the train in an attempt to save her small dog, "Governor," which she carried through her dangerous ride. Neither the girl nor the dog was injured and the child calmly told the story of her adventure to the trainmen who discovered her clinging to the "cow-catcher" when the freight was switched just south of Winnetka to allow a passenger train to pass.

The little girl was returning to her parents' home and was crossing the Chicago and Northwestern railroad tracks. "Governor," the dog, was following closely at her heels, but stopped on the north bound track in the path of the engine which was moving slowly out of the Evanston yards. Anna turned and called to her pet, but it did not hear and in an instant would have been killed had not the girl leaped in the path of the train and seized the dog by the collar, to be herself struck by the train and gaudered up by the pilot. The girl had approached the track from the left side and the engineer gazing from the right, did not see her.

MISS SORG TO MARRY.

Dayton, O., Oct. 14.—Announcement is made today that Miss Ada Sorg, daughter of the late Congressman P. J. Sorg, of Middletown, will, on Nov. 1st, wed Captain Pierre Drouillard, of the United States army. Miss Sorg is one of the wealthiest young women in Ohio. Captain Drouillard, whose home is in Nashville, Tenn., made a brilliant war record in Cuba, the Philippines and China.

FOUR SURVEYORS WERE DROWNED.

Winnipeg, Minn., Oct. 14.—Four men belonging to a party of six Grand Trunk Pacific surveyors were drowned yesterday in Winnipeg river, 15 miles from Kenora by the upsetting of a canoe. When the boat turned over Anton Larenzen, a powerful swimmer struck for the shore, followed by E. C. Moffat, who finally turned back. Fred Crooks and Wm. Porter sank immediately. John Brown was pulled out to the back of the upset canoe by Moffat but fell off again and sank. Larenzen threw up his hands and disappeared. Bert Gibson and Moffat stuck to the frail bark and after two hours of terrible suffering in the icy and turbulent stream were washed ashore.

AND THE WAR IS OVER.

Washington, D. C., Oct. 14.—The Emperor of Russia and the Emperor of Japan this morning signed the peace treaty thus officially ending the war.

ENDS TONIGHT

Last Day of Lewis and Clark Exposition.

"Auld Lang Syne" Will Be Played By U. S. Artillery Band

AT ABOUT MIDNIGHT.

The Fair Has Been One of the Most Successful on Record.

Was Visited By Two Million Five Hundred Thousand People.

PORTLAND, ORE., Oct. 14.—Today, "Officers and stockholders' day at Lewis and Clark Exposition is the last of the exposition period. After tomorrow the work of wrecking the immense exhibit palaces and state buildings will commence and in a few months all that will remain of the exposition will be a memory of its success—success as far as expositions go. President Goode has made public an announcement that the holders will receive a dividend from 38 to 40 percent on their stock. A record skill to equal any exposition of like character ever held in the world.

A THREE-MILE RIDE

Taken on the Pilot of a Locomotive by a Nine-year-old Girl.

TO SAVE HER PET DOG

She Ran In Front of the Train and Was Picked Up by Cow-catcher.

The passing of the exposition will not be marked by any elaborate literary exercises, but toward midnight there will be a grand fire works display, bands will render airs, and to the tune of "Auld Lang Syne" by the United States artillery band, President Goode will formally declare the exposition closed.

The exposition has been a remarkable success from every standpoint. It has attracted to this city and to the great Northwest a hundred thousand people; the exposition has attracted investors in almost every line of endeavor and it has made known to the entire country some of the advantages which the Pacific coast has to offer home seekers.

It is probable that with today's attendance the fair will have attracted over 2,500,000 people.

WANTED TO SEE ED. CUNLEIFFE.

Pittsburg, Pa., Oct. 14.—A report was received here today that Edward G. Cunleiffe the Adams Express money clerk, who is charged with the theft of \$191,000 had been captured early today at Elkton, W. Va., and was on route to this city in charge of Detectives. When the train reached Connelville, Pa., 60 miles from Elkton, a large crowd had gathered at the station, but Cunleiffe was not aboard, the conductor said the report of Cunleiffe's capture had preceded the train and large crowds of people, anxious to get a glimpse of the prisoner, were at all stations between Connelville and Elkton.

"TIDDLES" STAYS WITH THE WOMAN.

Wooster, O., Oct. 14.—Judge Eason today decided that "Tiddles" the youngest child of the Taggart's shall be left in the care of his mother at Wooster. The elder boy may go with his father, who is now located at the Columbus barracks. Judge Eason added that both children would however, remain under the jurisdiction of the court, and that above arrangement might be changed later.

BANK RUN STILL ON.

New Orleans, Oct. 14.—The run on Germania bank which began yesterday afternoon supposedly on the publication of a story two days in a newspaper was resumed this morning, but it is believed the excitement will pass with the day as the impregnability of the institution is realized.

BOMB THROWN; FIVE KILLED.

Warsaw, Russian Poland, Oct. 14.—A bomb was thrown today at the villa of an English manufacturer. The bomb and gardener were killed and the house was damaged. The bomb throwers were pursued by the police. When close pressed the fugitives shot and killed three policemen and then escaped.

ANOTHER VICTIM OF THE CRASH.

Chicago, Ill., Oct. 14.—A despatch to the Tribune from Peoria, Ill., says: The Dougherty scandal has claimed another victim. Driven to desperation and nervous prostration, over the disclosure compromising his bank and fear of a disastrous run, Nelson Bresham, a venerable stockholder in the Peoria National, died suddenly last night.

New York, Oct. 14.—An enormous crowd of base ball enthusiasts swarmed around the gates of the National League grounds here today, all anxious to see what may be the last and deciding game of the series between the New York Nationals and Philadelphia Americans, for the title of the world's base ball championship.

OVER ENGLAND

A Pall of Deep Sorrow Has Fallen

On Account of Sudden Death of the Country's Most Noted Actor,

SIR HENRY IRVING,

Whose Last Words Were the Glosing "Lines" of His Last "Part."

Body Will Be Taken to London Tonight—Town Hall Flag at Half-Mast.

London, Oct. 14.—Seldom has the death of a public man in England called out such a universal expression of sorrow as has followed the tragically sudden death of Sir Henry Irving at Bradford last night. Appreciative history of his career and stories of his many sided activities fill the newspapers. His last words on the stage as the curtain was running down on the death of Becket, "Into thy hands, Oh Lord, into thy hands," were practically the last words he uttered, as he never spoke after his collapse in the hall of the hotel where he died. Members of the company now recall that Sir Henry Irving, showed signs of exhaustion and overstrain during the past week which did not attract particular attention at the time.

During the performance of "The Bells" at Bradford, Thursday the veteran actor delivered many passages in a strain. Once or twice last night towards the close of the performance Sir Henry was seen to support himself on the stage but in response to the recalls of the audience he appeared before the curtain and acknowledged his welcome.

The flag is half masted over the town hall and other public buildings at Bradford and telegrams are pouring in from all parts of the country.

The coroner has decided that an inquest is not necessary and the body will be brought to London tonight. No definite funeral arrangements have been made but the family is understood to desire to have them as simple as possible.

Ellen Terry was greatly distressed at the news. She said: "All this has happened as he wished. He worked to the very last in full possession of his faculties. It rejoices me that he finished his evening's work. His last words on the stage were 'Through night to light into thy hands, O God, into thy hands.' His last expressed wish of his life, was for a municipal theater where everything would be of the highest order, where the standard of true drama as distinguished from entertainment would be successfully upheld. A realization of this wish would be a fitting monument to him."

A BIG OIL DEAL CLOSED TODAY.

Toledo, O., Oct. 14.—A large oil deal in the Trenton Rock Oil field was made yesterday afternoon when Thos. Percy paid \$10,000 for the 54,000 acres of the Hochstetler Oil Co. and the Southwestern Petroleum in two counties in Ohio and three in Indiana. There are 180 wells operating with 280 barrels daily production.

RUSSIAN EMPEROR'S

Invitation to Another Peace Conference at the Hague

MADE PUBLIC TODAY.

President Heartily Accepts the Invitation to Participate.

Washington, Oct. 14.—The state department today made public the invitation of the Russian government to a second conference at The Hague, and the president's response. These take shape of two memoranda, one dated Sept. 13, being an unsigned memorandum delivered by Baron Rosen to the president at Oyster Bay and the other a memorandum dated Oct. 1, also unsigned, delivered by the president to Baron Rosen in Washington. The first memorandum is a mere recital of opportunities of another conference, to submit a detailed program by Russia when they agree as meets. The president's memorandum is a hearty acceptance of invitation and directs attention to the fact that his previous circulars to the powers appear to be precisely in line with the Russian papers. The last memorandum was delivered to Baron Rosen Thursday night for transmission to St. Petersburg.

KING OSCAR ON DECK.

Stockholm, Oct. 14.—King Oscar formally resumed the reins of government today.

THE KING OF SWEDEN ON DECK.

The King of Sweden on August 10, last appointed Prince Gustav to be regent while his majesty went to Marstrand for his health. The crown prince for similar reasons previously acted as regent several times.

CHARRED BODIES FOUND IN RUINS.

Chicago, Ill., Oct. 14.—The charred corpses of Joseph Kantrun, 27 years old and his three months old child Anna were found in a closet beneath a stairway in a three-story tenement, 612 Jefferson street, today after firemen had extinguished a fire which is thought to have been of incendiary origin. During the fire a number of people stricken occupants of the house leaped from windows. The firemen believe to believe that the supposed incendiary was Kantrun and that his object was suicide. He had quarreled with his wife.

FIRE IN KENTUCKY.

Mt. Sterling, Ky., Oct. 14.—Fire today destroyed the Montgomery Blue Grass Seed plant with contents; also the colored public school building and J. W. Langston's grocery. Loss \$30,000, partially insured.

AMUSEMENTS.

Through the play of the day, "The Old Clothes Man," which is the latest production of the opera house, the audience is treated to a most interesting and varied performance. The play is a comedy, and is full of fun and laughter. It is a story of a man who has been in the world for many years, and who has seen many things. He is a man of many parts, and he is a man who is always ready to help others. The play is a most interesting and varied performance, and it is a story that is full of fun and laughter.

Lincoln J. Carter's latest success, "The Eleventh Hour," will be the attraction at the Faurot opera house next Monday evening. In this effort, Mr. Carter deals with life in and around Chicago. The theme is the old one of love, hatred and strife, as most plays are founded on, but he has strayed from the worn, beaten path of conventionalism and clothed the play in bright, refreshing lines and, subdued ardor and emotion. The cast is much above the ordinary and produces a pleasing effect.

"The Land of Nod," a musical farce in a prologue and two acts, by Adams and Hough, with music by Joseph Howard, has scored the greatest success of any musical show ever produced in Chicago, having played to a succession of crowded houses for the past five months, and could probably remain to paying business for another five months if previous bookings would permit. One of the principal reasons for the unusually liberal patronage bestowed upon this attraction is the novelty and picturesque nature of the plot, characters, and production which are briefly described as follows:

SCENE FROM OUR NEW MINISTER.

The Jewish people are a race that more rapidly assimilate with the American people and American customs than those of any other nationality. To follow the transition of "The Old Clothes Man" (James Kyrle MacCurry in the role) which appears at the Faurot opera house next Wednesday evening, for instance, from his early days as a peddler carrying his pack across the snowy fields of bound Siberia, his arrival at Castle Garden, New York, as an emigrant, his blossoming forth as an old clothes man in the Bowery, and his final metamorphosis as a millionaire on Fifth Avenue, illustrates a not uncommon example of what the "Sons of Israel" accomplish in free America. "The Old Clothes Man" depicts all these scenes graphically and all who

ings would permit. One of the principal reasons for the unusually liberal patronage bestowed upon this attraction is the novelty and picturesque nature of the plot, characters, and production which are briefly described as follows:

The prologue shows a garden filled with flowers. Here children are at play, but they soon withdraw, all but one of them, "Bonnie" who sinks to sleep beneath a rosebush, and the change to the first act discloses her in the "Land of Nod." In this mysterious sleep land with its many strange features, a river of poppetts, a house of cards, a candy bridge, butoon trees, and mushroom palace, Bonnie starts various adventures. She encounters the Jack of Hearts and his assistants, who make all kinds of good, bad and horrible weather while you wait. The "April fool" and his sweetheart the "Barber Pole," the "Weich Barelli," the "Sandman" and

Mayor Sweet, of Grand Rapids, Mich., indignantly refuses an increase in salary.

The funds for a memorial to the late Mayor Collins, of Boston, have reached the sum of \$11,290.

Frank Rockefeller, the youngest and least known of the oil king's brothers, is reported and reprehensible, his hobby being the raising of wild animals at his home near Cleveland, Wickliffe-on-the-Lake. On his Kansas ranch he has raised 3,000 cattle.

A singular state of things has come about in Alabama. Senator Morgan's term expires in 1907. He will be then (if living) nearly 88 years old. Senator Pettus' term expires in 1909. He will be then (if living) nearly 82 years old.

Alabama is on the quadrennial plan; after next year's legislature there won't be another until 1910. Next year's legislature, therefore, will have the electing of two United States senators. As far as known General Morgan and General Pettus desire and expect re-election. Suppose they are re-elected. At the end of their new terms (if they live that long) General Morgan will be 89 and General Pettus 84.

George Washington, colored, was the founder of the town of Centralia, state of Washington, and when he died recently at 80 years of age, all the stores of the place were closed during his funeral.

Ezra Meeker, who left Iowa in 1852 and went to Oregon with a party who drove ox teams, will start from the Pacific coast early next spring with a similar conveyance, and if possible will drive to Kalinsville, Iowa. He will follow the old emigrant trail and has arranged to lecture at a number of places along the route.

Michael P. Dwyer, long a notable figure in the city of New York, has broken down mentally and physically and will be placed in a sanatorium at Amherst, N. Y. He won and lost millions on the turf in his time. He once bet \$40,000 to win \$500, the favorite being one of his own horses. Now he goes to a retreat upon the advice of his brother and former partner, John Dwyer.

Most Americans who have had to do with Carlos Morales, president of Santa Domingo, declare that he is unlike this ordinary promise-making Spanish-American. Dependence may be placed on his word and he is actually trying to set his country upon its feet. He will not allow his followers to pay on old grudges and he is too strong to be the tool of politicians.

his part, "Knockout Drops" who are always causing trouble, and the "Man in the Moon," who is the merriest of all the queer people. All of these and many other strange folks contribute to her amusement and entertainment.

Also in the second act the "Nightmare Palace" of the land of dreams is entered, and the plot begins in the preceding act is carried to a conclusion as logical as ever should be in the realm of sleep.

The production is one of, if not the most elaborate ever given a musical extravaganza, and the company, which numbers over one hundred people contains an uncommonly large number of popular entertainers, including Wm. Morris, as the "Man in the Moon," Knox Wilson, Tom Armstrong, Hamilton Coleman, Walter Stanton, Sidney Deane, J. C. Mendill, George Fox, James Smith, Beatrice McKenzie, Olive Vail, Alice Dover, Elsie Duerksen, Ella Vern and many other favorites. "The Land of Nod" will be seen

here soon.

The spacious and magnificently appointed office of the Great Northern Hotel, Chicago, lighted by hundreds of incandescent lamps, with the intermingling of a host of select guests, in evening attire, furnishes the atmosphere for the kaleidoscopic first-part setting in John W. Vogel's Big City Minstrels, which will be seen at the Faurot opera house in the near future.

The orchestra is in the balcony directly over the dock, the chief clerk acting as interlocutor. The end-mep and other comedians assume the duties of porter, bell-boys, elevator man, etc., while the vocalists and specialty artists walk about with the same degree of abandon usually observed at a swell social function. The picture is one of ease and grace; an air of naturalness pervading the surroundings. "It is a novel idea well presented, and manager Vogel deserves great credit for having been the first minstrel manager to break away from the conventional semi-circular first-part idea.

Hamlin and Mitchell's production of the musical extravaganza "Babes in Toyland," is to be the attraction at the Faurot opera house in the near future. "Babes in Toyland" ran for two hundred and fifty nights in New York City, one hundred in Chicago and over one hundred and fifty in Boston. As to the gorgeous nature of the production both from the standpoint of scenic display and magnificent costumes, the "Babes" is said ranks with the very best presentations in both Europe and America. A very large company is concerned in this production, among them being Ignaro Martignetti, Katherine Bell, Christine Hudson, May de Souza, Maud Campbell, Katherine Murray, Irene Cromwell, Gus Plafie, Walter Schrade, Edward P. Sullivan, Robert Burns and James Wilson.

LIST OF RIGS

Up and Number of Wells Drilling

Shows no Decline in Activity in Mid-Continent Oil Fields.

DEVELOPMENTS SHIFT

Total Production Is Rated Over Fifty Thousand Barrels Daily.

The Weekly Report Covering Trenton Rock Field Shows Activity.

Codyville, Kas., Oct. 14.—The Mid-Continent field, while showing a decline in wells completed and a considerable falling off in production, has lost none of its activity, the list of rigs and drilling wells indicating an extending development in every principal producing district. The survey of the field as a whole shows that the deep pay territory is comparatively less attractive to operators than the shallow belts because the financial returns are more satisfactory so long as prices remain low. The Western field, area of big wells in very much, and only strong producers can pull the operator through a 50-cent market. The rapid rise in eastern values is having an influence in the west and the talent feels that the same conditions will soon force a better price for all light oil. It is almost two years since Kansas oil began to slump, and the first advance started the reaction. There is a noticeable encouragement throughout the different fields that leaves no doubt of increased activity and more prosperous conditions, the future influence of which will be stronger in the Western field because of its greater area of producing capacity.

Developments Shifting.
A study of the list of completions shows that operators have been neglecting the deep pay districts for the shallow belts, where inexpensive drilling permits a margin of profit. In Kansas the development follows the shallow territory in Miami and Franklin counties where, with small producers, the operators can make good, down through the Neosho trend. The Kansas division of the field did not hold its own in September, there being fewer completions and less production, and there is little likelihood that the Sunflower state will ever re-instate itself in the good graces of the producers who are looking for results except in Chautauqua county, in that section a good market will stimulate development and it has the goods to deliver. South of the state line the Cherokee side of the Bartlesville district shows continued activity and good results, although the area is limited. In the eastern shallow belt, with only half the production being handled by the pipe line, September shows more business than any previous month. The old-time people are dropping their prejudice against "post-hole" territory and are anxious to get in on the easy money. More drilling machines are running there than ever before and before snow flies the number will be increased, as the pipe-line will soon be taking everything in the district. The central, southern and southwestern portions of the Cherokee section remain under the ban of mystery, nothing but failures showing in the few tests made.

Ozage Country Slack.
The Ozage reservation has given the nervy prospect something of a job during the summer and little wild-calling is now indulged in. Operations are practically confined to the territory west of Ochelita and Ramona and extending to Nelagony and Wynona, as being the district that has responded the most satisfactorily. It is very expensive operating away from the supply points, and half a dozen holes at \$5,000 per makes even the old fellows with gristled mugs have a pain in the homestead region. It will take something like a cartwheel market to make the boys warm up to those rocky jungles.

Oklahoma's Outlook.
Since the pipe-line has been taking about everything offered in the Cleveland pool a trifle more activity has been noted, but the town lots are practically all drilled and an outside acreage that seems to be good is rather limited. While there are as many wells drilling now as at any time since the field opened a month may see a vast change with but little doing, unless the upturn in the southeast about seven miles in the Lawton vicinity develops something out of the ordinary, and then that little activity will be shown there until the inside locations in the old pool people are drilled up. At the turn of November, around the

bent in the Arkansas river, west of Cleveland, Frank Riser has found a pay at the depth of 2500 feet that may open up a new sand pool, different than anything yet struck in the Western field. Aside from the Cleveland pool Oklahoma is pretty near the edge of the petroleum map and a jar would jolt it off.

The Creek Nation Work.
The Red Fork-Tulsa, Muskogee development just about holds its own, a dozen to fifteen completions being its monthly contribution, with little prospect of its being materially increased. A number of recent tests failed to find anything of value and not more than half a dozen prospect holes can be found in the Creek country.

Pipe Line Guesses.
A close estimate rates the output production of the Mid-continent field at something like 55,000 barrels a day. The pipe lines can figure only on the production as follows:

Fields Barrels.

Bartlesville 15,000

Cleveland 5,000

Candy Creek 8,000

Ochelita 8,000

Cody's Bluff-Chelsea 4,000

Tulsa 1,500

Chautauqua 6,000

Other Kansas Fields 6,000

Total 50,000

If drilling drops off and the production is all run the full capacity of the wells for thirty days the present facilities can easily take care of the production. If a good market prevails and development is pushed there is enough sure territory to slightly increase the production for a period, but the outlook is that it will remain about stationary for some months, spring at least. It can be stated with reasonable certainty that, within a week or so the waiting line will be taking oil regularly and cool weather will permit the rushing of storage tanks. Lines of sufficient capacity to handle every district in the entire field are either completed or being laid and will be finished in 30 days. The refineries will consume more oil during the winter months and the production will evidently be taken care of from now on.

Another Week in Oil.

The boom in prices of oil has stirred up the buyers of production to some extent and the woods are full of them. Several large deals are pending and should a few cents be added to the price it will hurry up the closing of the deals. The largest price paid for Trenton limestone production for a couple of years back was the Appleby, Taylor company sale to New York parties at \$1,000 per barrel. Eastern buyers have great faith in the outlook, otherwise they would not boost the price so high, and again buyers of production are not as anxious to sell since they have discovered the fact that the new Mid-continent field is not holding up to its production to the extent that many thought it would. Lessees have advanced away from production and are taking up property in hopes of widening out the producing area. Within the past few days a well was drilled in Seneca county, Ohio, twenty miles from production, and while it shows only for a couple of barrels indicates that oil exists there, and by further development may open up another good prolific pool. In Paulding county a test was drilled in that is credited with doing 50 barrels the first four hours, which is large enough to excite the most skeptical oil man, and make him bustle out there for leases. In Mercer county, near the Indiana-Ohio state line within the past few days wells were completed that make a remarkably fine showing and create no end of excitement among the natives and oil men. In Indiana only a portion of the oil area has been leased up and drilled over and there will be many years to come. Indiana has a great future before it. Illinois still remains a mystery to the oil world, although close to two hundred wells have been drilled in the shallow territory adjacent to Casey, Kentucky comes to the front this week with an old time gusher that was found in Wayne county. In an extension to the Parnellville district, that flowed 500 barrels, also creates good excitement there.

Gushers in the high grade fields the past week were few and far between. The West Virginia field only furnished one good for 200 barrels in Harrison county, and southeastern Ohio only two. Indiana had five which were found in the Muncie district. Northwestern Ohio failed to find any worthy of note outside the Genoa pool in Ottawa county, and the gusher in Willshire township, Van Wert county, that flowed better than 200 barrels the first couple of days. THE NEW SUPPLY OF NATURAL GAS. NOTICE.

As many persons are of the impression that consumers who have recently been using gas need not make new applications, the company begs to state that it will be necessary for every one, both the old and new consumers, who expect to use natural gas after November 1st, to call at the gas office and make application.

The new supply of gas will only be turned on to those who sign new application contracts.

Where meters are set out of doors, consumers will have to see that they are boxed to protect them from the weather. The box should be packed with sawdust or straw to keep from freezing.

Gas will not be turned into any meters out of doors that are not boxed and protected from frost.

Never Did Let Up for a Single Moment

And But Two of the Wapak. Indians Were Able to Hit Safely.

VANANDA MADE GOOD

Struck Out Champion Cy Seymour and Other Cincinnati Players.

Reds Scored Ten Runs and Indians Were Given a Shut-Out.

Wapakoneta, O., Oct. 14.—Eighteen hundred enthusiasts, fans from all over Auglaize County, turned out yesterday afternoon to see their favorite in the league, the Cincinnati Reds, in action, and 1,500 fans, still loyal to the home team, were sorely disappointed. The game was by no means a farce but it was much more one sided than even the knockers had expected. There was one redeeming feature, every player on the local team was a home boy, and no one was imported for the occasion. The home boys simply could not hit Ewing, and Long Bob picked up as if he had it in for his old friends and fellow townsman. Zaenglein and Vananda were the only two of the locals to make safe hits. In all but two innings Vananda, who has been drafted to play with Cincinnati next season, pitched first class ball, and with anything like respectable support the score would at least have been even in two. The home boys were routed in the first inning, and never quite got over it. The fielders covered but little territory. Lefty Houtz and Fred Dingler being the only ones to distinguish themselves by good catches. Every one wanted to see Champion Cy Seymour, of course, but Vananda and Ewing were the drawing cards, and both were often given the glad hand. The sympathy, however, was with Vananda, and when he struck out Seymour in the first inning and later on Odwell, Bridwell, Huggins and Scheit, the immense crowd cheered lustily. In the last inning, Vananda reached second and the rooters hoped, with three good matters to follow, that he would reach home, but Long Bob never let down. The visitors played a steady game and never looked, Steinfield making the only error on a bad grounder. Four of them were caught between bases while trying to steal. The score: Wapakoneta 0-0-0-0-0-0-0-0-0-0 Cincinnati 4-1-1-2-4-0-0-0-12

A FRIEND OF GOV. HERRICK SORRY BECAUSE HE IGNORES SOLDIERS

"Some of the friends of our governor, Myron T. Herrick, are greatly worried," said John M. Wagenbach, a leading Republican of Columbus. "They think our governor has made a mistake and continues to make a mistake by refusing to mention the old soldiers in any of his speeches. In his entire speech occupying almost six columns of space at Beaufort, our governor does not directly or indirectly mention the old soldier. What has the old soldier done to meet such treatment as this from the governor of the great state of Ohio? Just think of it, more than 50,000 of these old soldiers, who were the defenders of our country, two years ago voted in this state at the election for our governor, Myron T. Herrick. And why is it that our governor has taken such a dislike to the old soldiers? Is he trying to make his word good when he said he could be elected without the old soldier vote? Or is he now thinking of the many old soldiers who have been discharged under his administration and he is afraid to mention them in his speeches? Wasn't it unkind of our governor when he remarked that he was perfectly willing for the old soldier to be taken care of, but he himself did not propose to do it. The old soldiers are growing fewer and fewer every day. They were the defenders of our country. They have made the Republican party possible, of which our governor is now the head in this great state of Ohio. There is a law on the statute books which was made for their protection in their old days. Why has our governor violated this law? Why is he now so humiliating them by refusing to even mention them in any of his public speeches? They are deserving of better treatment at the hands of the Republican party and our governor, Myron T. Herrick, than they are now receiving. The boys of '61 to '65, when fighting for their own country, knew their enemies, and whom they were fighting. They have a far greater enemy in the northwest corner of the state house in their old days."

PATTISON PUNCTURES THE APOLOGY OFFERED FOR THE GRAFTERS

"The Democratic party, and with us, we believe, all good citizens of all parties, are making this great campaign not only to have an honest government in Cincinnati, but we are making a fight in behalf of the whole state—a state the proudest, and in our opinion the greatest commonwealth in all the bright constellation of states, a state that has since its foundation had a history not only unique, but one filled with the best American life and American manhood."

"It has been asserted by apologues for the present organization of the Republican party of Ohio, that corruption and graft have always existed; that the morals of the present day are better than ever before, and that the many recent exposures of venality in office are the result merely of an enlightened public conscience, and of greater publicity, which have brought to light these evidences of graft."

FARMERS TOLD To Get Ready For an Early Fall.

Prophet Hicks Gives Caution and General Advice on Weather.

NEXT STORM PERIOD

Will Be Central and About Twentieth and Will Be Mild.

No Student of His Forecasts Need Be Unprepared For Emergencies.

The following are the predictions of Prophet Hicks for October weather. While a portion of the month is passed, it will be seen that the man who has the nerve to controvert the government's weather prognosticators has not been far wrong.

His Prophecies.

The first storm period covers the 1st to the 5th inclusive. Earth's autumnal equinox extends over this period, adding its influence to the volcanic period, with moon at first quarter and extreme declination south. Probable results—By the 1st the barometer will be falling in western section accompanied by change to warmer and growing cloudiness. From the 2nd to 5th these conditions will increase as they move eastward across the country, resulting in autumnal rain and storminess over most parts of the country. A touch of early snow followed by clearing, frosty nights, may be counted on northward, at and immediately following this period.

The Second Storm Period—Reactionary—This period is central on the 6th, 8th and 9th. It is within the mercury brace, with the autumnal equinox of earth still exerting a degree of influence. These factors added to the reactionary volcanic force, constitute the disturbing causes at this time.

Probable Results—Falling barometer, rising temperature, growing cloudiness and return of autumnal rains, will result at this period. The western tangent, or the last part and wind-up of this and other October periods, will bring squalls of snow and early touches of winter over northern sections, followed by northerly winds and clear frosty nights in central to southern states.

The Third Storm Period—Regular—This period is central on the 14th, covering the 12th to the 16th. It lies at the end of earth's autumn equinox, at the center of the mercury period with the moon, at the full and in apogee.

Probable Results—The mercury period, which is central on the 13th, not only extends over this storm period but it touches the reactionary periods immediately preceding and following this period. At one or more of these three periods affected by the mercury period, we may reasonably look for the rains to turn into snow and sleet and squalls of early winter. The crisis of the mercury period, in all probability, will fall in this regular volcanic period. On and touching the 13th, the change to warmer will be marked in western parts, the barometer will fall to low reading, and decided storms of rain, turning at the last into sleet and snow, will pass eastward over the country during Friday, the 13th to Monday the 16th. High gales over the great lakes and along the north Atlantic will attend the rising barometer pushing those storms from the northwest. Heavy frosts with freezing in the north, shading into light frosts and freezing far southward will succeed the storms of this period. Seismic shakes will be nature's many parts on the globe on and about the 13th.

The Fourth Storm Period—Reactionary—This period is central on the 19th, 20th and 21st. The volcanic reactionary influence, moon at north declination and last quarter and the declining force of the mercury period, are the perturbing factors in this time.

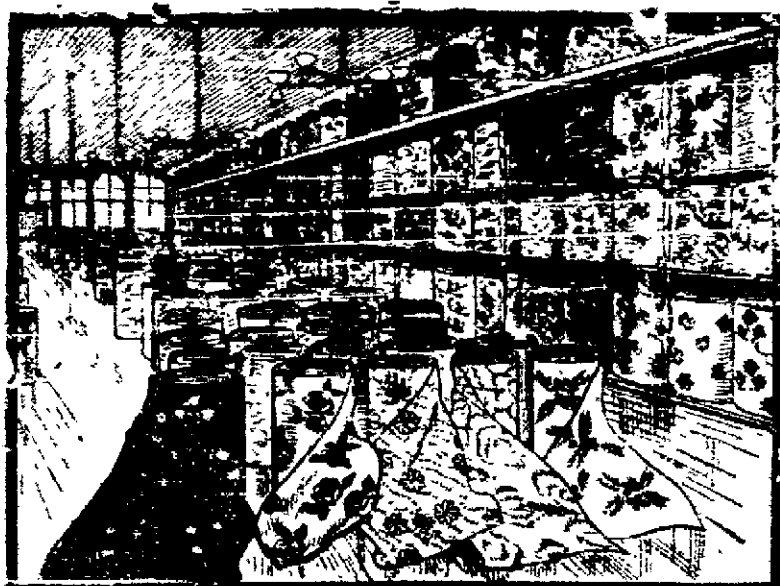

Probable Results—The probability is that disturbances will be moderate at this time. The temperature will rise and the barometer fall, with cloudiness and light autumnal rain and snow. Change to fair and cooler will pass progressively from west to east, headed by light disturbances of this period.

The Fifth Storm Period—Regular—This period reaches from the 24th to the 28th. It is central on the 25th, but its culmination will not be fully reached until about the 26th. The regular volcanic force, with moon on the celestial equator, in perigee and at the new, are the only storm causes operating on this period. By the 26th a marked change to warmer will be

in progress, with probable lightning and thunder. Low barometer with continued tendency to rain and storminess will lead up to the 25th, on and about which date general and decided storms, first of autumnal rains, later merging into snow to the north may be counted on. Some high gales on land, lake and sea will come with the rising barometer behind those storms, all ending in a rather decided cold wave for October. On and near the 25th very high tides and seismic disturbances will be the most natural. Those who watch the world's record closely will find this forecast verified.

General Advice and Caution—From what we have said in the foregoing and a general knowledge of the average storm and weather conditions in the extreme of the continent no student of these forecasts need be unprepared for anything that may come in the way of autumnal storms and weather changes. We believe that this season will bring "an early fall."

Agriculturalists should keep this fact prominent in all their plans.

Columbus, Oct. 11.—Assistant Attorney General Miller has returned from Eastern O., where with the attorney general and the state inspector of mines, he spent most of the week in inspecting the mines of that locality with a view to determining what new legislation for the protection of the lives of the miners will be necessary in the hands of the coming legislature. It is probable that the new legislation will provide that all mines in the localities where the roofing is weak shall have a roof beam who shall be held responsible for keeping safe roofs by placing posts where ever there is the slightest danger of a fall. Another source of danger in the mines in that section of the state is mining gas. At Amsterdam the officials went into the deepest shaft—nearly 300 feet

straight down. Their mine gases were for the day. A large amount of gas had accumulated in a room through the mine is inspected for gas before the men go in for work. But that is the least attention paid to the matter.

Noted Athlete Praises Cooper's Quick Relief

Cooper's New Discovery Strengthens and Invigorates Every Organ of the Body. Cooper's Quick Relief Strengthens and Invigorates the Muscles, Takes Out the Soreness and Loosens the Joints. This Letter Will Interest You.

THE COOPER MEDICINE COMPANY.
Gentlemen: I consider Cooper's Quick Relief the greatest liniment in the world. I have used it ever since a trainer in Pittsburgh, Pa., told me about it. I was bathed and rubbed down with this remarkable preparation on both nights before my recent fights with Kid McCoy and Tommie Ryan. It is the greatest rub-down I ever used. It supplies the muscles of the body, invigorating and strengthening them and takes out every particle of soreness and lameness which comes from severe training. Cooper's Quick Relief is one of the essentials of my training camp and I am glad to recommend it to any athlete who is getting into condition for a contest. Signed: JACK-KID-GRAHAM, Indianapolis, Ind.

Cooper's Quick Relief is the Remedy With Which Mr. L. I. Cooper Makes His Sensational Three Minute Cure of Deafness and Paralysis.

It takes out all soreness, swelling and inflammation, stops pain instantly and opens the pores of the skin, aiding these important outlets of the body to throw off their poisonous secretions.

Cooper's New Discovery costs \$1 per bottle; three for \$2.50; six for \$5. Cooper's Quick Relief, the assistant remedy, costs 50 cents per bottle. Beware of imitations and street fakery claiming to sell the Cooper Remedies, buy only from our special agent whose name appears below or from legitimate dealers in medicines. Where we have no special agent, you can secure the medicines, charges prepaid, by sending price of remedies you wish direct to:

CARTS IN SCOTLAND.

They Were a Cause of Wonder in
the Eighteenth Century.

In Scotland at the beginning of
the eighteenth century produce was car-
ried in sacks on horseback or on
sledges, or later in the century on
tumbrels, which were sledges on "tun-
bling" wheels of solid wood with
an axle-tree, all revolving together.
These machines were often so small
that in a narrow passage the carrier
could lift them bodily, for they held
little more than a wheelbarrow. They
had wheels a foot and a half in di-
ameter, made of three pieces of wood
planned together like a butter flin
and which quickly wore out and be-
came utterly shapeless, so that a load
of 600 pounds was enormous for the
dwarfish animals to drag. Yet even
such vehicles were triumphs of civiliza-
tion when they came into use when
the century was young.

Carts are a later invention still, and
when one, in 1723, first carried its tiny
load of coals from East Kilbride to
Cambuslang, "crowds of people," it is
reported, "went to see the wonderful
machine. They looked with surprise
and returned with astonishment." In
many parts of the lowlands they were
not in ordinary use, even till 1760,
while in the northern districts sledges,
or creels on the backs of women were
chiefly employed to the end of the cen-
tury. The wretched condition of the
roads was the chief cause of the re-
luctant adoption of carts.

In the driest weather the roads were
unfit for carriages and in wet weather
almost impassable, even for horses—
deep in ruts of mire, covered with
stones, winding up heights and down
hills to avoid swamps and bogs. It
was this precarious state of the roads
which obliged judges to ride on cir-
cuit, and a practice began as a physi-
cal necessity was retained as a dignified
habit, so that in 1744 Lord Imlay re-
signed his judgeship because he was
no longer able to "ride on circuit."

LIFE IN ANCIENT GREECE.

No Remains Whatever of Grecian
Domestic Architecture.

Of the domestic architecture of the
Greeks nothing whatever remains,
writes Jean Scheepers in the Archi-
tectural Record Magazine. In ancient
Greece private houses never had any
architectural interest. A citizen of
Athens or Sparta was too busy with
state affairs to spend much time at
home. He wanted to be in the public
place where he could find his friends
and fellow citizens. Moreover, the
climate allowed him to live in the open
air during the greater part of the year.

It was on the agora that the citizens
assembled in public meeting. It was
there, from a rostrum, that the orators
harangued the crowd; hence the need
of a good voice and a clear enuncia-
tion; hence, too, the famous pebbles of
Demosthenes. It was in the open air
that Socrates and his disciples held
their discussions alongside the Hyades,
under the plane trees, or on a public
place. It was in the academy gardens
that Plato patronized and in open air
gymnasiums that the youths practiced
their athletic games. There was no
reason of state for a domestic architec-
ture with such a people and in such a
climate. It is not necessary to have
palatial administrative buildings for
governing a people that live in the pub-
lic places. Besides, what significance
would the term comfort, which is so
full of meaning to us twentieth cen-
tury westerners, living in cold, damp
climate where fog, wind and rain pre-
vail during half the year—what sense,
we ask, would this word have for the
robust Greeks of the fifth century B. C.,
whose children Aristophanes pictures
to us on their way to school barehead-
ed, in spite of the falling snow, and
slugging as they go?

Took the Last Chance.
An old Scotch gravedigger was re-
monstrated with one day at a funeral
for making a serious overcharge for
digging a grave.

"Well, ye see, sir," said the old man
in explanation, making a motion with
his thumb toward the grave, "him and
me had a bit o' a tiff two or three
years syne ower a brae watch I sell
him, an' I've never been able to get
the money out o' him yet. 'Now,' says
I to myself, 'this is my last chance,
and I'd better tak' it.'"

Was It St. Mark or Lazarus?
As Jesus was being led captive from
the garden back of Jerusalem one form
followed the guard. It was white in
the moonlight and looked like an ap-
parition. When the guard noticed the
figure they sought to lay hands upon
it, when the figure cast off the cloth
around its form and escaped. St. Mark
is the only historian who mentions
this, and some writers think St. Mark
was the figure. Others think it was
Lazarus.

EARLY CALIFORNIA SHIPS.

How Commerce Grew in Pioneer
Days of the Golden State.

The first European vessel to enter
the port of San Francisco of which
there is any record was the Eagle, in
1816, commanded by Captain William
H. Travis. She sailed from Boston via
the Sandwich Islands and Alaska. She
carried an assortment of goods which
were a revelation to the natives, and
their garments of skins and hides were
substituted by the clothing of civiliza-
tion. Payments were made in hides,
tallow, soap and fish. The Eagle then
became engaged in the sea otter trade
and was very successful, as otters
were plentiful in San Francisco bay
and all along the coast. She made
three trips, netting about \$25,000 on
each trip. This stimulated others, and
this discovery no doubt gave an im-
petus to commerce which made this
port known to the world.

Commerce in those days of manna
was carried on in what might be termed
a "free and easy" manner. On
many articles the duty was 100 per
cent, which practically amounted to
confiscation of made smuggling neces-
sary in self defense. The Mexican of-
ficials generally opened the door. Fre-
quently vessels were permitted to pass
Monterey, the port of entry, going to
Yerba Buena and, after selling as
much of the cargo as possible, to re-
turn to Monterey for entry and dis-
posal of the remainder.

The shippers were not sworn as to
the value of the cargo. They gave fic-
titious invoices and by this means
would get off on the payment of \$5,000
on a \$20,000 cargo.

It became so customary to swindle
the government as scarcely to excite
comment, except in cases where goods
were confiscated in false linings of
the vessels and the government officials
were outwitted.

URIC ACID IN THE SYSTEM.

A Medical Opinion on This Pae to
Health and Life.

Halg holds that the man of average
weight elaborates twelve grains of uric
acid in twenty-four hours, and woe be-
lieve him if he does not excrete the full
amount with due celerity. A little re-
tained uric acid will give rise to head-
ache, lethargy and mental depression.
A greater retention will give rise to
arthritis, lumbago and sciatica. The
uric acid never will end his days
through bronchitis, Bright's disease,
apoplexy, diabetes or cancer. Man
cannot avoid his fate and escape being
a uric acid producer. He can avoid,
to some degree, swallowing the uric acid
stuff. What he cannot avoid swallow-
ing he can, with care, excrete. If
he can be made wise and kind continued
to live, where he belongs, near the
equator, and had fed on fruit and nuts
all his life, he would be wiser, but he
cannot do so. Here are the rules that
one must follow to be healthy and
live long: First, swallow no uric acid
and pass out each day regularly and
punctually all that is formed in the
body. Second, excretion of uric acid
may be obtained by clothing warmly,
by avoiding exposure to cold in every
way (the morning cold tub is an espe-
cial abomination), by eating freely of
potatoes (especially in cold weather),
and by avoiding fruits. Bicarbonate
of sodium, night and morning, for peo-
ple who live in a climate similar to
London's is a fine habit. In addition
to all this, it is also advisable to se-
cure the proper distribution of time
between bodily and mental exertion
and to dispense with dependence on
tonics, stimulants and bracing il-
lumes.—New York Medical Journal.

Water Thieves.
Water thieves are not unique. Their
prototypes existed at least as long ago
as 1479. At that time a Londoner
wrote: "This year a wax chandler in
Flete street had his craft pierced a pipe
of the conduit within the grounds, and
so conveyed the water into his cellar;
wherefore he was jugid to ride through
the Citee with a conduit upon his
bedde." There were other difficulties
too. A century later (1574) it is re-
corded that owing to a sudden shower
of rain the water in the Dowgate chan-
nel "had such a swift course that a lad,
minding to have leapt over it, was
taken by the feet and borne down with
the violence of that narrow stream till
he came against a cart wheel that stood
in the water gate, before which time
he was drowned and stark dead."

The Sun's Corona.
Thus far we know the corona of the
sun to be a sort of outer envelope, so
shielding us from the intense solar
light and heat that it may be said
without exaggerating that the sun has
never really been "studied comprehen-
sively." Within the corona is an ocean
of gas 5,000 miles deep, stained a ruby
red by the crimson blaze of hydrogen.
Flashes of flame leap from this ruddy
mass often to a height of a hundred
thousand miles and more.

is a Bad Way.

announced to his congregation one Sun-
day: "You'll be sorry to hear that the
little church of Jonesville is once more
tossed upon the waves, as sheep with-
out a shepherd."—Boston Christian

A BATTLE ROYAL
ON ELECTRIC CAR.

Alliance, O., Oct. 14.—In a fierce
fight on a Stark electric car, between
Salem and Sebring, late last night,
Conductor T. H. Smith was knocked
senseless and three women were
frightened into hysterics. A number
of Sebring men were intoxicated, one
smoked a cigarette and Smith attempt-
ed to stop him. He attacked the con-
ductor and his friends came to his as-
sistance while a number of other men
in the car helped the conductor. The
battle raged up and down the aisle un-
til the conductor was struck on the
temple and rendered unconscious.
Two women fainted. Seats in the
car were torn from their fastenings
by the enraged men. The car was pul-
led back to Salem and Frank Christy was
arrested.

**Thrown Upon Her Alleged
as Extreme Cruelty.**

One more divorce action graces the
disgraces the common plea court dock-
et today, and the pleading alleges ex-
treme cruelty in this that the husband
—defendant did on the third day of
August of last year, throw a glass of
water upon the plaintiff who is Miss
Bessie Schneck, married to Grover
Schneck in this city on March 18th
in 1894.

The wife further alleges that after
committing this extreme piece of cru-
elty that the husband then and there
did with malice aforethought declare
he was tired of married life and was
going to leave her, and he then passed
from the house and has ever since
been absent.

The wife also alleges gross neglect
in that defendant has failed to pro-
vide her with the common necessities
of life.

**Will in the Future Endeavor
to Maintain One of the
Best Stores in Lima.**

Much favorable comment is being
expressed among Lima shoppers con-
cerning the up-to-date appearance of
the People's Book Store since the
recent purchase of that popular es-
tablishment by the firm of A. A.
Llewellyn & Co., from Burt Green
& Son, on north Main street. Many
changes have been made for the bet-
ter, including the addition of several
new lines of goods and the enlarging
of other staple lines. In the wall
paper department there will be de-
cided reductions in prices for a short
time, enabling the patrons to decor-
ate their homes at a cost far below
the customary expenditure.

An important feature of the new
stock of the People's Book Store is the
fine full line of Roman Catholic
goods, such as prayer books, rosaries,
etc.

Here can also be found a full line
of periodicals from all parts of the
country. In the school supply line
there is everything necessary to the
pupil from the primer to the senior
year in the high school. The elegant
line of sporting goods must also
come in for a goodly share of com-
ment for the young athletes can find
at the People's Book Store every-
thing necessary for any sporting
game of the season. This line could
not be more complete. If Lima-people
are looking for anything new in
picture frames, the new firm has pro-
vided for such wants with a beauti-
ful and extensive line of mouldings,
all reasonably priced.

Last, but by no means least, the
stationary department deserves special
attention on account of the as-
sessment and newness of the stock.

In fact the People's Book Store, as
it is today, is thoroughly modern and
the prices cannot be duplicated for
reasonableness. That is about as
pleasant a combination to the shop-
ping Limaite as one could ask or ex-
pect.

D. J. Cable Before
Mentioned.**

The Allen county branch of the
National Good Roads Association
met this morning at the court house
with a good representation of inter-
ested persons from the townships
and villages over the country.

D. J. Cable presided and stated the
object of the meeting was the selec-
tion of delegates to the state meeting
which will be held in Columbus next
Wednesday and Thursday, and to
formulate their organization locally.

The following delegates were selected
to attend the state gathering, while
the officers of the society were em-
powered to name any others whom
they desired. D. J. Cable, president
of the Allen county branch; McDou-
gall, Emmett, secretary; John G.
Roberts, Nelson McBride, and Dr. R.
E. Jones, also officers—the three
county commissioners and Messrs.
Albert Hefer, ex-commissioner;
Henderson Fackler, Bluffton; John
Begg, Columbus Grove; C. W. Daw-
son, Lima; Earl Montague, German;
William Russler, Shawnee; John
Stevenson, Argillais; Newton Berry,
German township.

The membership fee of the branch
was set for \$1 a year with no dues,
this sum being necessary to defray
current expenses and all vice presi-
dents in the various townships and
villages are requested to solicit mem-
bership, while their duty will also be
to report any needed repairs or other
matters regarding good roads.

The Allen county delegation will
go to Columbus on Wednesday but
not to boost the candidacy of the
Hon. D. J. Cable, who feels he can
not spare the time it would neces-
sarily require to promote the interests
of the movement as the state presi-
dent for Ohio. After the return from
Columbus a general meeting of the
Allen county branch will be called.

ARTHUR GERS.
Pianist.

This excellent trio is now touring the middle west. Each of the artists
has won high place in his separate field of music.

M. Chamberd Giguere has international distinction. During eight years
he worked at the Royal Conservatory of Brussels, where Thomson, Marsick,
Cornelies and Ysaye were his teachers. Here in the contest of 1901 he was
awarded the "first prize with distinction." He is a true artist. A genius
of the violin. Mme. Birdall-Strong is a singer of most pronounced artistic
qualities. Her voice is a mezzo-contralto of the purest quality, full and dra-
matic. She gives the immediate impression of artistic power. Her stage
presence is unaffected and charming. Mr. Arthur Gers is a well rounded and
artistic musician. He accompanies with most delicate sympathy. He has
met with warm approval in his pianoforte work, both in Europe and America.

PIQUA DEFEATS LIMA

**On the Former's Grounds in
a Shut Out Game 22
to 0 Yesterday.**

The Lima College football team de-
feated the Bluffton H. S. Alumni team
by a score of 11 to 0. The playing
was fast and hard. Bluffton claims it
to be hardest fought game that they
have played for three years.

All the men played good ball. For
Lima Guery and Montgomery made
the runs and Brockman pounded the
line.

The features of the game were,
Geiger's 30 yard run, Guery's 50 yard
run on a fake and Montgomery's 50
and 70 yard runs for touchdowns.

The boys received the very best of
treatment. Coach Geiger, O. N. U. fa-
mous half played half for Bluffton. He
made a number of good gains.

Line-up—Bluffton: Guards, Tripel,
Mohler, tackles, Angsbauer, Carpen-
ter; Ends, Todd, Woods; Halts, Zer-
baugh, Tripelhorn, Geiger; center,
Spangler; full, Owen; quarter,
Mitchell.

Lima College: Guards, D. Adkins;
Sullivan; tackles, Basinger, S. Adkins;
ends, Mowery, Lauffer; halves, Mont-
gomery, Brockman; center, Rousculp;
full, Guery; quarter, Poling.

Prof. Beard, Ref. and Umpire.
Parsomator, timekeeper.
Half—25-30 minutes.

The above report of yesterday's
game was submitted by members of
the Lima team. Later, Capt. Mitchell
of the Bluffton team, telephoned to
the Times-Democrat, declaring that
the score of the game should be re-
ported as being a tie—11 to 11. When
questioned concerning this claim of
the Bluffton team, members of the
Lima College team stated that two
Bluffton eleven had scored five points
after time had been called, ending the
second half. Members of the local team
confess, however, that the referee per-
mitted the scoring of the last five
points, making the contest a tie game.

Piqua 22—Lima High 0.
Piqua H. S. defeated Lima H. S. yes-
terday afternoon in a good game on
the Athletic field at Piqua. The spe-
cial features were a 64 yard run
for a touch down by Little in the first
half and a 60 yard run by Wells for
Lima in the second. Neither side
scored in the second half. Lima show-
ing much improvement. The score was
22 to 0.
